Subject: RE: Cecil Field \_ Site 5 FTMR Form for UFP SAP modification \_ DPT Investigation effort \_ electronic submission

Rob,

The first page of the FTMR under Recommended Disposition requests an email approval from BRAC PMO, FDEP and EPA. BRAC PMO agrees with the plan.

Thanks,

Art Sanford

Subject: Cecil Field \_ Site 5 FTMR Form for UFP SAP modification \_ DPT Investigation effort \_ electronic submission

Attached is the Field Task Modification Request Form for the Site 5 DPT Investigation, along with the UFP-SAP pages that required updates based on the DPT investigation plan and the associated SOPs. This FTMR is to replace the Abbreviated Work Plan for Site 5 sent January 6, 2012, according to EPA comments received January 12, 2012 and discussion at the February 15 BCT meeting. Therefore, the Abbreviated Work Plan will be removed from the DWS and replaced with this document, and it is recommended that all hard copies be disposed of, as well. Hard copies of this FTMR and attachments have been distributed to the appropriate locations and the document will be loaded onto the Cecil Field DWS.

Your review and comments are appreciated and this Modification to the UFP SAP will be incorporated during the next annual review. Field efforts to implement this proposed work is anticipated to be conducted next period so your timely review is appreciated.

Please let us know if you have any questions.

Thanks, Rob
